

10/62611

**IN THE CLAIM**

Please cancel Claims 1 and 4, without prejudice or disclaimer of the subject matter thereof. Only claims 2 and 3 are remained without any amendment. Thus it is assured that no new matter is added in the this amendment.

**LIST OF CLAIMS:**

Claim 1. (Cancelled)

Claim 2. (Original) A fume exhaust apparatus for cooking stoves, comprising:

a fixing base;

a connection assembly pivotally mounted on said fixing base;

a transparent hood assembled with a lower end of said connection assembly, and having a heat-insulation handle and a through hole respectively disposed thereon;

a fume-exhaust hose having one end connected to said through hole of said transparent hood and the other end connected to a filter box and an air-suction motor; and,

said air-suction motor capable of being connected with a control switch via a power-supply cord, and having one side connected with an air-exhaust tube;

wherein said connection assembly comprises a swivel arm having one end pivotally mounted on said fixing base and the other end provided with a swivel pivot whose lower end is pivotally connected with one end of a connecting rod whose the other end is pivotally connected with an upper end of a supporting rod whose lower end is assembled with said transparent hood, whereby the arrangement of said connection

assembly permits said transparent hood to be moved to any required positions.

Claim 3. (Original) A fume exhaust apparatus for cooking stoves, comprising:

a fixing base;

a connection assembly pivotally mounted on said fixing base;

a transparent hood assembled with a lower end of said connection assembly, and having a heat-insulation handle and a through hole respectively disposed thereon;

a fume-exhaust hose having one end connected to said through hole of said transparent hood and the other end connected to a filter box and an air-suction motor; and,

said air-suction motor capable of being connected with a control switch via a power-supply cord, and having one side connected with an air-exhaust tube;

wherein said transparent hood has an opening disposed thereon for being pivoted with a door, said door provided with a grip disposed thereon.

Claim 4. (Cancelled)
